Technology Management Seminar Series

Graduate Seminars - Fall 2008

**Topic:**

A nationally recognized expert in critical path scheduling and project management, and the author of *HOW TO GET PAID For Construction Changes*, McGraw-Hill, 1998, will be speaking on his experience and research on best practices for planning and managing projects.

The presentation will focus on the needs of novice and mid-level project managers and busy executives, but will also include valuable tips for experts.

Steve’s talk will integrate his 35-years of project management, management consulting, and design and construction experience with his extensive research and writing on all aspects of managing projects. The primary areas of focus will be: (1) critical path scheduling; (2) project management and program (multi-project) management for the design construction industry, public works, manufacturing, systems development, and administrative projects; and (3) avoiding and resolving disputes.

**Steve Pinnell**,
President – Pinnell/Busch, Inc.
